

# FLEET AND FAMILY SUPPORT CENTER

## SUBASE NEW LONDON FFSC

### Integrated Primary Prevention (IPP)

**KEY POINTS FOR LEADERS:** IPP focuses on risk and protective factors that impact two or more harmful behaviors. By identifying shared risk and protective factors across various harmful behaviors and implementing activities to prevent these shared factors simultaneously, the Navy will foster healthier command climates.

#### Mission

**Tough and Resilient Teams:** Develop to enable warfighting capability.

**Harmful Behaviors:** Address those affecting sailors and their families.

**Evidence Based Prevention Activities:** Implement to deter harmful behaviors.

#### Our Focus

**Integrated Primary Prevention (IPP):** A comprehensive approach to preventing multiple harmful behaviors.

**Reducing Risks:** Identifying and mitigating factors that contribute to harmful behaviors.

**Promoting Protective Factors:** Strengthening resilience and wellbeing.

#### How We Achieve Our Mission

**Research-Based Practices:** Using proven strategies to maximize impact.

**Continuous Learning:** Adapting to evolving needs and emerging best practices.

**Collaborative Partnerships:** Working with leaders to create a healthy command climate.

**Data-Driven Decision-Making:** Using data to inform strategies and measure outcomes.
